## SA1905-10 - Battery Smart Charger

Multi-function charger for SA1505 battery

The Sound Associates SA1905-10 Smart Chargers take the next step in the evolution of infrared system battery chargers, offering both drop-in charging stations for ease of distribution and charging slots for additional batteries. Each charging position has a multi-color LED indicator that lights when a battery is properly inserted. Red indicates uncharged. As the battery continues its trickle charge the LED will change to green when it is fully charged. This exciting feature virtually eliminates distribution of insufficiently charged or non-functioning batteries.

Each charger includes: one 5 VDC power supply, one coupling cable to charge two units with one power supply, fastening hardware to couple units for additional stability; two battery extractors.

Each charging station (drop-in or side slot) has an LED battery charging indicator which turns to green when battery is fully charged.

SIDE VIEW: features 20 additional charging slots (10 per side)

END VIEW: Multiple power connectors to couple two chargers to one power supply

## FEATURES

- Convenient drop-in charging cradles will charge 10 batteries while in the receiver.
- Multi-charging capabilities to charge to additional 20 batteries in side slots.
- Recessed LED battery charging indicators at all 30 charging positions.
- Linking cable to charge two units on one 5 VDC power supply
- Fastening plates and hardware to connect chargers side-by-side or end-to-end for greater stability.

### Technical Specification:

No. of charging positions:	Drop In: 10	Battery Slot: 20 (10 per side)
Dimensions	5.37" w x 1.25" h x 16.25" d	Weight: approx. 1.4 lb. (empty)
Input voltage	5 VDC	Charging time: approx. 4 hours (depending on load)
LED Indication (Bi-color LED)	Red: fully discharged/charging	Green: fully charged

### Warranty

The SA1905-10 transmitter and 5 VDC power supply are covered by a full one-year warranty, from the original date of purchase, against defects in workmanship or materials. If either component fails due to defects in craftsmanship or materials, we will repair or replace the component without charge. The factory warranty does not cover malfunctions due to abuse or operation other than specified.
